My wife, our children and I, we left suddenly because we won a tourist trip around Europe and it was necessary to leave home very quickly to catch a flight. That's why I left you an audio message with a request to come at our house and live here for a week.

And so far you live here, I ask you to do next things.

1. Our dog, whose name is Rocky, is very kind despite his impressive size. He will be very happy when you will come and he may jump for of his happiness. Don't be afraid of that. I ask you walk him two times a day. This may be done in the small forest behind the house. In addition I ask you to feed him two times a day after a walking. You may find the big purple feed in the corner of the kitchen. Also it is necessary to make sure that there is always a lot of fresh water in his bowl.
2. Our plants. We have some plants, which our son grows. All of them are at the second floor hall on the sill of a large window. I ask you to water them one time a day or one time a two days, depends on the dryness of the land. In addition, please, water the lawn. Once will be enough while we are away. The watering device switch is located to the right of the entrance door.
3. The last thing that I request you is the airing the house. Please open all the windows once a day during 30-40 minutes. It will be enough.

We prepared the guest room for you. It is on the second floor. The TV-set is available; I paid for cable TV for a month in advance. We filled the fridge and bar special for you, but if you want something you can deliver it. There are a lot of brochures of stores and restaurants, which are located nearby.

And thank you very much for taking care of the house while we will be at the trip.

We embrace you.
