Each person has his hobby and as a matter of fact little free time to do something we like doing most of all. I also have many hobbies. As I am a pupil I haven't got much free time during the student days. And I study in Russian college so I've got only one day off. It's Sunday.

In my free time I usually hang out with my friends or surf the Net. If it is summer I don't use the computer much and have a great time outside. But in autumn, winter and spring I have to use computer more because sometimes we can't do our homework without using the Internet. And I usually chat with my friends because I don't see some of them for a long time.

On Saturdays or Sundays I usually help my mum with the housework, watch TV, meet my friends and often play the guitar because I'm mad about music.

But sometimes if the student days were busy and I had to study much harder I simply relax. I think we must do something interesting in our free time because we become bored and tired after doing homework and studying so hard.
