English is very popular nowadays. It is studied almost everywhere. Students should learn English. Because the world. Now in our world foreign languages are a means of information transmission. Between people all over the world, our planet. More than 3,500 million people speak English. Since it is most likely their native language. Also English is one of the languages of Canada. In the colonies what are the second language English and British. English is the international language for communication in science, art and media. It is the language of computer programs, literature, art and music. Now everywhere we need English language. More than half the world speaks it. If I am not mistaken in some schools you can ask exams in English. Of course there are places where you do not need English. Although it is possible there is no such place. You may not be hired if you do not know English. Many people say that English is very easy. But this is not always the case. It can be easy you listen carefully to what you are told, try to understand it. But at the same time it can be difficult, because if you do not want to teach it, you will not be able to understand it. Some people don't dislike English. They say they won't ever need it. But after a few years, they realize they were wrong.
