How are you? Thank you for your letter. I so miss you. I decided to write to you a letter. Everything is good. But I am so tired without you.

We could spend more time if it were not for the distance between us. Today you have a wedding, and I can only admire your happy photos of your new life. It was a great disappointment that I could not go shopping with you and choose a wedding dress. No matter how trite it seemed, I always wanted to be a bridesmaid. Probably every girl in her life dreams of it.

Looking at your holiday from photographs, I imagine how we could have fun together, dance and play. Watch you throw your wedding bouquet, cut the cake and feed each other with the bridegroom. And I scream bitterly with the guests, and you kiss your husband already.

Despite all this, we had a good summer with the children. Hot and unbearable summer in our country:

as soon as we move to a new apartments. We have already finished the repair of our flat. I am going to buy new furniture to the hall, kitchen, bedroom, living room and children's room. Everything is very expensive. I want us to meet. You would help me to choose comfortable and modern furniture.

My children are fine. They have holidays now. We go to the aqua park, to the cafes, to the parks. It is boring to sit at home. We decided to give our daughter to the Lyceum. Our son is finishing nursery school. I want to give him to a good school. After moving to the apartments I will go to Moscow. I am planning to stay there for 3 months. Mum invited me. My husband has promised to think about this theme. Unfortunately he cannot go with us.

The weather is very hot. The temperature is around 40. We spent daughter's birthday three days ago. We went to the mountains. We grilled kebabs on the grill. We were swimming on the rest zone. We have tanned by the sun. By the way, I cooked very tasty fruit cake. I thought that we would eat it so long time. But we had eaten it so quickly.

When are you going to Moscow? How are your parents? How is your future husband? What about weather? I have seen today on TV that the weather in your country is very

hot. Temperature of the air is around 50. Really?

Studding is good. As soon as I graduate university. Because, it is my second profession. I work in the mobile company. After taking a diploma I am going to work by profession. Next year I will go to Moscow again, for taking my diploma.

You live so far...If you live near I would visit you every day. And you could come to my house and to see my flat. Only you understand me. Thank you for your being in my tide moment. Come to our city.
