The first cafe is called "Conversation", it is located on Bolshaya Nikitskaya street. In this institution you can try different desserts and not only, in addition to sweets, in the cafe you can have a tasty snack salads, pasta, hot dishes and so on. But still, the main feature of this cafe is desserts, they look very beautiful and appetizing, you can choose them after seeing them on a large glass window. You can also order cakes to order. In addition to delicious food, I like this place because it is very cozy, despite the fact that the room is not very large. The interior is not bright, I would even say that dark, someone may not like it and may put pressure on someone, but I feel comfortable there. There you can spend time with your friends in a relaxed atmosphere. I also like the fact that this cafe is located near red square. The only drawback is that you will not be able to visit it often, as the prices there are quite high. The second place I like to visit is called "IL Patio", and it is in the shopping center Aviapark, as there I like the atmosphere of the restaurant more than in other places where I was. This restaurant I like the fact that there is a very tasty cuisine, namely Italian. More just I like sit on 2 floor, there lot more seats and more more beautiful, than on 1. The following places are gastro-markets, namely "Depot" and "Around the world". These institutions I like the fact that you can choose any kitchen, as there are many small palatochek where food is prepared. There are a lot of places and very tasty food, there you can try absolutely everything, and desserts and Japanese cuisine, and Georgian, and Greek, and so on. These places we like to visit with friends, there you can gather companies and do not disturb anyone, as there are a lot of places. Everyone can visit these places, because the prices are very affordable. I visited not very many institutions, so while I can highlight this institution. In the future I plan to visit more different institutions and not only in Moscow, but also in other cities and even countries.
