I was in Cuba. I was there half a year ago, in the summer. Just for 2 weeks.

It is very beautiful and very hot. The landscape is fascinating, the water is transparent blue. As a family, we stayed at the hotel, there is a very pleasant atmosphere, the design is thought out to the smallest detail. We swam and ate a lot. The seafood is excellent! We were in the reserve, saw a lot of exotic birds and monkeys. In the sea I swam with many bright fish. I really liked it there to relax with my family, when there is a chance we will go there again
