It's a well known fact that hotels nowadays play a big role. Every year more and more new hotels are opened.

Sometimes it is even difficult to decide which to choose while traveling. There are luxury hotels, which seem to be expensive, b & b hotels, where you will get only breakfasts and a place to sleep, youth hostels, where you meant to serve everything yourself and many other places to stay in. How to do chose?

You can book a room with Internet and your phone or offline.

If you will use online booking it's will be fast and comfortable.

Sure, on the one hand there are a lot of advantages in it. To begin with, it's convenient. You have a chance to make a telephone call and reserve any room you want in a good time, to be confident by your arrival. Besides, you don't need to serve yourself, everything will be done by the hotel staff, I find it wonderful.

But on the other hand there are still some disadvantages to booking room online. First of all, the service can be poor and slowly. Second, you don't know what room you will take. Third, the view from the window can be not so romantic as the advertisement said but more modest, it can also disappoint some people, who care about the beaty around them.

Personally I'm for online booking inspite of all disadvantages. It`s only a freak of chance, everything can happen. So before booking a hotel, you'd better learn some facts about it in the net or from your friends for sure.
