In addition, every day I meet my neighbors, when I go to work early in the morning and return home in the afternoon. All the houses on our street are identical, but each has its own story, character.

My neighborhood is changing a lot. Previously, it was just a small residential neighborhood of our city, now it is being improved. The government are building new houses, shops and a school here. More and more people are starting to buy nice and very comfortable apartments in new houses. This is good for our area, because there are many shops, banks, in general, we have developed infrastructure. We have a gym there. Therefore, I think that change is only for the better. As it becomes a modern neighborhood, you cannot be afraid to return home late, because there are many people on the street and good lighting. If you came to live in Moscow, I can advise my area, because it is the best! You can live here for a long time, because there are many playgrounds and a lot of space, as well as two hospitals nearby. This is a good place to grow your children. You can buy a large apartment at a good price, but only if you find the right one, because here people quickly buy apartments. Before all the changes, it was a criminal area, now it doesn't scare you, because there are a lot of lights, and they also removed a little forest. Yes, it is bad to cut the forest, but there were old huge trees that made me afraid of the dark in the evenings. They created many new trees and a lot of light, so now it is a favorite place for people with children or with animals.

If one day you decide to live in my city, I advise you to my neighborhood. You will never regret it.
