Last summer, my sister and I went to visit my grandmother in Kyrgyzstan. We did not fly by plane for a long time, but then we had to go by car to the mountains for as much as 7 hours. But this trip was worth it. There is a mountain lake Issyk-Kuul, where we used to swim and fish all the time. We also went to the mountains and collected mushrooms and useful herbs. It was very fun and interesting, my Grandmother fed us delicious food and various fruits. We stayed in Kyrgyzstan all summer and returned home tanned and rested. It was the best vacation ever.
