My neighborhood is changing a lot now. It was just the periphery of our city, now it is becoming a center. They are building new houses here, and more rich people come to live because of good and so comfortable flats. It is good for our neighborhood, because here are many shops now, banks, so in general we have a developed infrastructure. We have a lot of gym's there, you can choose any one you like, all kinds of shops: from bread to houses.

Therefore, I think that changings are just for the best. Because it is becoming a center, you cannot be scared to back home late, because many people are outside. If you come to live in Izhevsk - my neighborhood is one the best! You can live here for a long time, because here are a lot of kid's places and a lot of space here, also the hospital is close. It is a good place for growing your kids up. You can buy a big flat with a good price, but just if you will find the available one, because people bought flats quickly here.

Before all changings it was a criminal area, now you cannot be scared, because many lights, and also they took off little forest. Yes, it is bad to cut a forest, but there were old huge trees, that made me scared of darkness in the evenings. But now I have no fear of darkness. They have made a lot of new trees there and a lot of light, so now it is a favorite place for people with kids, or with animals, as well for people riding a bike.

If one day you will decide to live in my town- I advise you my neighborhood. You will never regret.
