There have been many travels in my life, but the most memorable travel experience is the trip to the competition. They passed far to the north in the Mountain Salanga city. We had to go to the place for three days by train and almost the whole day by bus. There were many adventures along the way. The train ride was very difficult for me, I did not sleep for almost two days and was exhausted. Next, we had to travel by bus along a very difficult road to the place, we got stuck in the snow three times and the whole team together pushed the bus out of the pit. Luckily we got there successfully, but it was very difficult. A few days after our arrival, the day of the competition came, I was very excited and did not know how to deal with it. As a result, I won a prize and was very pleased with this, the coach and our entire team were happy for me. It was my first important competition and it was important for me to perform well and I coped with this task. After the end of the competition, we drove home together and fortunately arrived much better than we arrived. I consider this trip to be the most memorable in my life so far.
