This summer, we again went to the Black sea as a family, as every year we try to adhere to this tradition.

This year we went to Sochi again. It has a very developed infrastructure for vacationers and tourists. There were five of us: mom, dad, me, my husband and our dog.

But first, there was a long road ahead, which I love very much, since we got to the place by car.

I love excursions to the mountains, as the mountains are very beautiful nature and fresh air. I am glad that I have made several boat trips and will take a ride on jeeps on mountain roads, as this entertainment is very exciting. There was an opportunity to go to the water Park and admire the sports facilities that were built for world sports competitions and are admired by vacationers.

My husband and I went to the gorge several times and rode jeeps while my parents were basking with the dog on the beach.

The city has a lot of different entertainment options that are suitable for people of any age. The beaches that stretch along the city are very clean and equipped they have the opportunity to play beach volleyball and rent various sports equipment

Vacation at the sea has many advantages: fresh sea air, sea water and just a cool atmosphere and energy of nature.
