I think, nowadays it is very important to know foreign languages. Some people learn languages, because they need them for their work, others travel abroad, for the third it`s just a hobby. People want to know languages, to write to their pen-friends or to communicate with people from different countries, to meet more people and make new friends. Also, they want to read books of famous writers in original, to read newspapers and magazines. It helps them to know more about different events, people`s life, customs and traditions.

Learning foreign languages broadens our minds, people become educated. In my opinion, languages are especially important for those who work in different fields of science and technology, in politics. A foreign language helps to know the native language better. People, who know many languages are called polyglots. We know the names of some of them: German professor Shlimman, famous writer Shakespeare, philosopher Socrates and many others.

Nowadays, English has become an international language. Over 300 million people speak it as a mother tongue. As for me, I learn English from 7 years age. This language helps me very much, to speak free with people from all over the world, make new friends and participate in international contests.

I like one proverb of Johann Goethe:" He who does not know foreign languages does not know anything about his own." I speak Ukranian, Russian, English, a little Italian and Spanish. And I`m very proud of it, because languages-it`s my second life. Also, I would like to learn Germany, French and Serbian, but this year I dedicate myself to learning Italian. You know, dream from my childhood - to be an an interpreter and I`m sure, I get it.

Personally, I think that to know foreign languages today is absolutely necessary for every educated man, for every good specialist. So let`s to learn foreign languages and discover with them many interesting things in our life!
