Welcome to my burrow! Here is some information to my make your stay at my place as pleasant as possible.

Location

The flat is perfectly located in the city center just five minutes walk from the nearest underground station. You will recognize where my house is immediately – use the BGL cafe as a landmark. That one with the green roof and nice balconies is your target. The flat is on the fifth floor and has wonderful panoramic windows overlooking the Fontanka river.

Transport

Unfortunately there is no space for parking cars. But you are free to use my scooter! You can leave it in the hall of the house (main entrance).

Kitchen

There are plenty of products in the fridge that you can cook by yourself. I know that you like seafood – so I have bought some for you. Please feel free to make delicacies here! Be careful with the oven – sometimes it is easy to burn meals to a cinder. So check it every 15 minutes while cooking. Also I would recommend you not to use the kitchen extractor fan. Unfortunately it is not possible to use it: something got stuck in it and I haven't checked it yet. If you have time, do something with it, please!

Do not forget

- Please feed Marsy with the fresh hay and carrots and also the grass pellets (you can find them in the cupboard).
- Please water my flowers and plants in the garret twice a week. You know how I cherish them.
- If you want to invite some of our friends here, you will need to be quiet or the neighbours will be nervous.
- If you are leaving the flat, please make sure that all the windows at the second floor are closed.

- After closing the entry door set the alarm. I will send the instructions for doing this via whatsapp.

Enjoy!
