Home, sweet home...it is a place where we always want to return, where we can feel happy and quiet.

Our family lives in a multi-storey house on 11 floor. We live in a big flat. We have a kitchen, two toilets, a bathroom and three rooms. I live in the first room, my brother lives in the second and our parents live in the third.

Our kitchen is very big. I like this place. Our family enjoys to spend time together in the evenings there. By the way, we like to receive guests and have fun in the kitchen. Of course, our parents often cook a lot of tasty dishes. My brother and I usually help them.

My favorite place in our flat is my room. It is not very big but very cozy. I have a bed, a mirror near it, a closet, a desk with a computer near the window, a TV and the shelves with a lot of different little things there. I spend a lot of time in my room. I study and relax there.

My brother's room is big. There are a big pull-out sofa, a desk, a TV and of course a lot of toys in this room. My brother feels comfortable there and often cleans his room.

My parents' room is not big but very atmospheric. The furniture is usual in this room. But there are very unusual lamps, which gives extraordinary light.

Also we have a closet with books in a corridor near the parents' room. This is our home library. We have a lot of different books there. Every member of our family can find a book, which he or she likes.

In conclusion, I want to say that "My home is my castle" we say very often. And everyone knows that this castle is very hospitable and friendly.
